MICROPERFORATED ALUMINUM

PANEL

MICROPERFORATED ALUMINUM

Elevate your designs with our Microperforated Aluminum Panels, a groundbreaking combination utilizing microperforated aluminum and a rigid aluminum honeycomb backer. These panels combine acoustic elegance with the structural rigidity essential for expansive applications. Opt for performance, and revel in the stunning aesthetics they bring to your projects.

- Standard sized tiles available for quick delivery
- Available in both tegular and flat edge profiles
- Available in multiple colors and finishes
- Class-A Fire rated for peace of mind
- Up to 0.80 NRC rating without the need for an additional backer

SPECS

Material Composition: Aluminum with 0.04mm ultra micro perforations

Thickness: 0.5"

Size: 2' x 2', 2' x 4', Custom up to 4' x 8'

Installation Method: Lay-In

NRC Rating: Up to 0.80

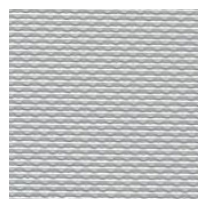

Fire Rating: Class A Fire Rated per ASTM E84

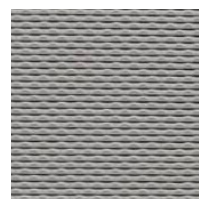

FINISH

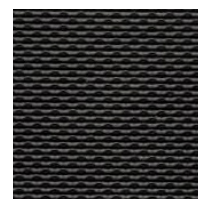

Enhance your design with a spectrum of powder-coated colors, adding a touch of sophistication to your projects.

Snow White

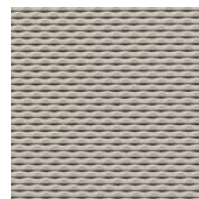

Cloud Gray

Black

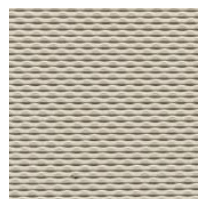

Beige White

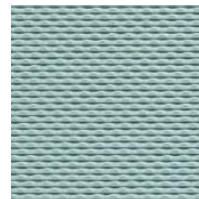

Ivory White

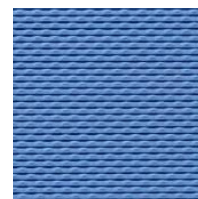

Dark Brown

Pearl Yellow

Aqua Green

Sky Blue

PERFORMANCE

These panels offer a seamless, silk-like aesthetic and boast an outstanding NRC rating of 0.80. What sets our material apart is our patented angled micro-perforation technique, a departure from conventional 90° perforation methods. These micro-perforations are meticulously designed to optimize surface performance, absorbing sound and electromagnetic waves while effectively mitigating heat. Bring elegance, functionality, and innovation to your spaces with Material Logiq microperforated aluminum.
