CLOUD

MICROPERFORATED ALUMINUM

Elevate your design vision with our Microperforated Aluminum Clouds. These visually exquisite clouds not only perform exceptionally but also become an enchanting focal point within your space. Opt for them for their outstanding performance, and fall in love with the way they enhance your space's style.

- Available in multiple colors and finishes
- Curved designs available
- Class-A Fire rated for peace of mind
- Up to 0.80 NRC rating without the need for an additional backer

SPECS

Material Composition: Aluminum with 0.04mm ultra micro perforations

Thickness: 1"

Size: 2' x 2', 2' x 4', Custom up to 4' x 8'

Installation Method: Threaded Rod, Hanging Wire

NRC Rating: Up to 0.80

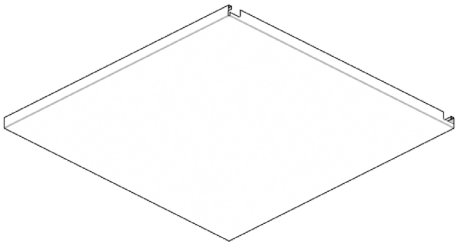

Fire Rating: Class A Fire Rated per ASTM E84

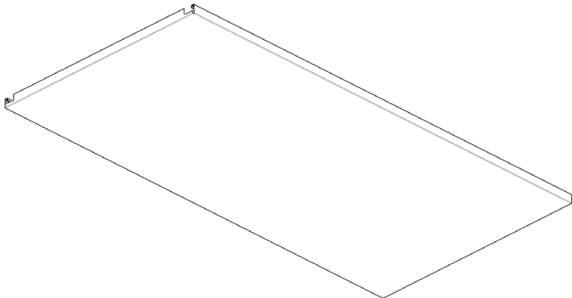

EXPRESSIONS

Microperforated Aluminum Cloud

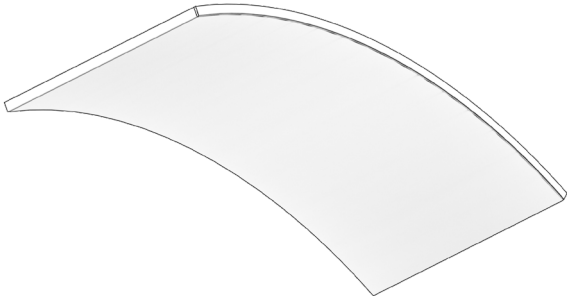

Clouds are available flat, convex, or concave to meet the needs of any project.

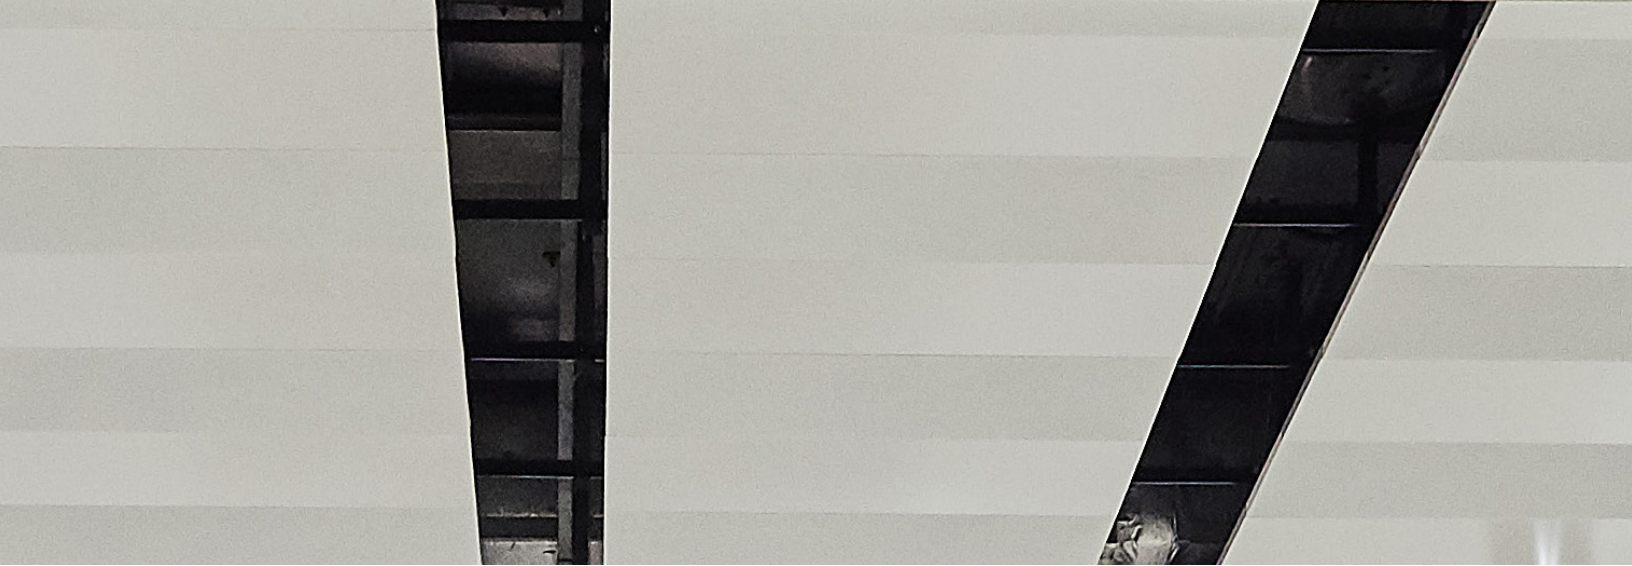

2x2

2x4

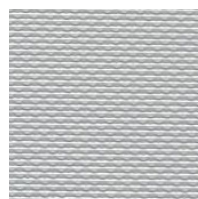

2x4 Concave

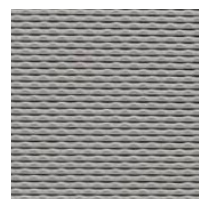

FINISH

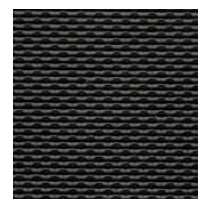

Enhance your design with a spectrum of powder-coated colors, adding a touch of sophistication to your projects.

Snow White

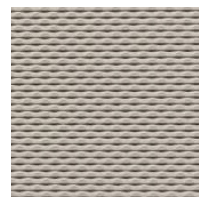

Cloud Gray

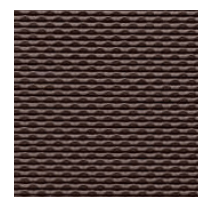

Black

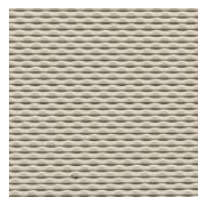

Beige White

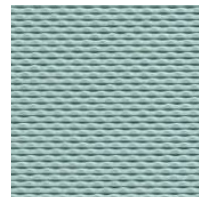

Ivory White

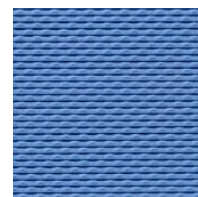

Dark Brown

Pearl Yellow

Aqua Green

Sky Blue

PERFORMANCE

These panels offer a seamless, silk-like aesthetic and boast an outstanding NRC rating of 0.80. What sets our material apart is our patented angled micro-perforation technique, a departure from conventional 90° perforation methods. These micro-perforations are meticulously designed to optimize surface performance, absorbing sound and electromagnetic waves while effectively mitigating heat. Bring elegance, functionality, and innovation to your spaces with Material Logiq microperforated aluminum.
